## **INTRODUCTION**

### **This Publication**

This publication contains the rules of Dodgeball administered and controlled by South Australian Dodgeball League (SADL) adapted from New South Wales Dodgeball's copy via Author Mark Barnsley.

### **Application**

These rules apply to operations affiliated with SADL. The management team may make appropriate modifications consistent with the spirit of these rules for specialised and underaged competitions.

### **Nature and Object of Dodgeball**

The Main Referee is the person in charge of conducting the Match, making sure the Match runs accordingly and that all Players, Team Officials and Supporters act according to these Rules. They are appointed by the Controlling Body, or volunteers (paid or unpaid) to assist in conducting the Match. The Main Referees' role includes, but is not limited to:

- (a) Keeping the official Match Time;
- (b) Keeping the official Match Score;
- (c) Starting, stopping and otherwise controlling the movement of game play;
- (d) Monitoring Player Eliminations, either by Strike, Catch or Out of Bounds;

### 6.2 Line Referee

A Line Referee is a person who assists in the conducting of a Match who may be appointed by the Controlling Body or volunteer (paid or unpaid).

The Line Referees role includes, but is not limited to:

- (a) Monitoring False Starts; and

Match Officials should act in a fair and unbiased manner towards the Match. Should a Player, Team Official or Supporter feel that the Match Officials are not conducting the Match in a fair and unbiased manner, they may bring the issue up with a member of the management team.

Depending on the nature of the issue, actions taken can include:

- (a) A Verbal Warning issued to the Match Official;
- (b) Disciplinary action, such as removal from the Match.

## 7 Misconduct Reviews

### 7.1 Who can report a case of misconduct

You can report a case of misconduct if you are;

- (a) A captain of one of the teams involved in the game of the case.
- (b) In an instance where the captain was not attending that game, a player can report by proxy and approval of their captain.

The Management Team also have a right to report a case of misconduct if they believe a game has been affected. The Management Team will do so to ensure the league is playing fairly, and will not report a case unless there is a legitimate concern.

### 7.2 You should report a case of misconduct if you are

- (a) Confident of the video evidence;

- (b) Believe the other team has cheated;

### **7.3 Misconduct can be classified as (but not limited to)**

- (a) A player not honouring an elimination (i.e. not taking an out);
- (b) A player re-entering the field of play without a catch occurring;
- (c) An incorrect player intentionally re-entering the field of play upon a catch;
- (d) A player stepping on or over a boundary line, and with full knowledge (i.e. looks at own feet) continues to play on.

### **7.4 How to report a case of misconduct**

As we require evidence of misconduct, you can only submit a review from games that have been recorded and uploaded publicly from South Australian Dodgeball League. These can be found on the Australian Dodgeball Youtube Channel. Only video footage provided by SADL is accepted.

To submit a misconduct report you must email to [southaustraliandodgeballleague@gmail.com](mailto:southaustraliandodgeballleague@gmail.com) the following information;

- (a) Reporter's Full Name
- (b) Reporters Email
- (c) Person(s) involved in misconduct incident's name (If known, otherwise a description is acceptable)
- (d) Video Timestamp(s)
- (e) Description of misconduct incident
- (f) Submit within fourteen (14) days of the video being publicly available.

### **7.5 Who will review cases of misconduct**

The Review Panel will consist of the three (3) members:

- (a) The league owner: Rosie Everett.
- (b) The league manager: Jess Maddeford.
- (c) The referee involved in the match.

In a case that one of the owners is subject to a misconduct review, they will be replaced by either a league manager or the referee that officiated the game.

### **7.6 How cases of misconduct will be investigated**

The Review Panel must have unanimous agreement that there is sound evidence of misconduct for penalties to apply. If there is not a unanimous agreement then the case will not proceed. If a reported case of misconduct is found to not have sufficient evidence and will not proceed, the team that reported will lose the right to report any other cases for the remainder of that season. The panel will scale the penalty based on the player's experience (i.e. As newer players will still be learning the rules, they will not be penalised to the same degree of severity as players of greater experience.)

Advice;

- (a) Ensure that video submissions are clear to you before submitting for review.
- (b) Submit a case only if completely confident of the evidence you are submitting.

### **7.7 Expected penalties for proven cases of misconduct**

Any players found to have a proven case of misconduct will have their team's game result reduced by at least 1 point. Further penalties may apply depending on severity. Some other penalties might be;

- (a) A red card on the player or team;

- (b) A yellow card on the player or team;
- (c) Further point reductions to the game result.
- (d) Player or team disqualification from a Match or Matches;
- (e) Player or team disqualification from a competition or tournament;
- (f) Playing bans; and
- (g) In extreme cases, legal prosecution.

## **7.8 How penalties will be applied and notified**

If there isn't sufficient evidence and the review fails;

- (a) The reporter/captain will be notified by email that their case will not proceed and that they have forfeited any further reports for the remainder of the season.
- (b) The accused teams or players will not be informed.

If there is sufficient evidence and a successful unanimous vote;

- (a) The reporter/captain will be notified by email that their case has proceeded;
- (b) Any penalties to the accused will apply immediately;
- (c) The captain of the accused will be informed of the report and the penalties by email;

(If not already involved in the panel) The Management Team will be informed of the report and the penalties so that they can monitor any penalties that may apply to their league.

- (b) If a Player on the Court is injured; or
- (c) For another reason, the Team Captain finds suitable, at the discretion of the Match Official.

### **8.8 Timeouts Play Stoppage**

Play will cease immediately upon signal from the Match Official/s that a Timeout is in effect. Any Live Ball thrown prior to the signal shall remain Live and may still Eliminate Players or be Caught with the normal consequences until such it becomes Dead.

### **8.9 Medical Substitution**

Teams may substitute an injured Active Player with:

- (a) An Inactive Player; or
- (b) The next revivable Eliminated Player where no Inactive Player is available.

A Player substituted due to injury cannot return for the rest of the Match or play any remaining Matches within the same Round.

### **8.10 Timeout Refusal**

Match Officials will have discretion to shorten or refuse a Timeout where it is deemed unnecessary to meet reasonable requirements of resolving matters.

### **8.11 Variation**

A Controlling Body may vary:

- (a) The duration of a Match;
- (b) The duration of break intervals;
- (c) The number of Timeouts;
- (d) The duration of Play stoppage; and
- (e) The duration of Match Timing stoppage.

### **8.12 Set Duration**

There is no prescribed limit for the length of a Set. A Set will continue until all Active Players from one Team have been Eliminated.

### **8.13 End of Half**

A Set is to be started if there is any time remaining on the Match Clock. This may mean only 1 second in a set before proceeding to a Sudden Death.

Any Set still in progress when time expires for:

- (a) The First Half Period will continue into the Second Half Period; and
- (b) The Second Half Period or Tie Breaker Set will proceed to Sudden Death.

### **8.14 Actions at End of Half**

Any Balls thrown prior to the signal for expiration of time in either Half Period or a Tie Breaker Set shall remain Live and may still Eliminate players or be Caught with the normal consequences until it becomes Dead.

### 8.15 Intervals Between Sets

Time will continue at the end of each Set. Match Officials will allow thirty (30) seconds from the end of a Set for Teams to take their Starting Positions, at which time the new Set will be started. Teams will be given a warning before the start of the Set.

### 8.16 Start Warnings

To allow Teams to take their starting positions, Teams should be given as a minimum a thirty (30) second warning for the start of the first Set in a Half Period. Should Match Officials determine that both teams are ready sooner, a Set may be started.

### 8.17 Starting Positions

Active Players must take correct Starting Positions for the start of each Set. A Player is in the correct Starting Position when they:

- (a) Are inside the Court; and
- (b) Have at least one (1) foot touching the Base Line.

Any Active Player not inside the Court for the commencement of the Set as signalled by the Match Officials will be Eliminated.

Any Active Player who steps forward off the baseline after the Match Officials have indicated for Teams to be ready but before the Starting Signal is given will be deemed to have False Started.

### 8.18 Starting Signals

Following any required warnings, Match Officials will determine that both teams are ready to begin and invite teams to prepare for commencement.

After a short pause that should be no longer than three (3) seconds, Match Officials will visually check both sides, say 'Ready' whilst simultaneously putting their arm up and then blow a whistle in conjunction with a downward hand movement to initiate the Set, see Figure 2.

*Figure 2: Starting Signal*

Players should move from their Starting Position into the Court immediately upon the whistle. Should Players have their foot/feet on the Base Line for too long, upon Match Officials discretion, that Player may be called Eliminated, as touching any boundary line while in game play results in Elimination.

### 8.19 Opening Rush

Upon the Starting Signal, Active Players may retrieve Balls from the Centre Line to begin play.

### **8.20 Crossing the Centre Line**

Players may cross the Centre Line when retrieving Balls during the Opening Rush, this is the only time this is allowed. There are no requirements to retain contact within the Teams' half of the court. Upon retrieval of the Balls, Players are expected to immediately retreat to their own Court Half, delay may be cause for Elimination at the Match Officials discretion.

### **8.21 Activating Balls**

Balls must be Activated prior to throwing by having them pass behind the Activation Line. Only the Ball will need to pass behind. Until such time as the Ball passes the Activation Line it remains Inactive. If an Inactive Ball is thrown, it immediately becomes a Dead Ball.

### **8.22 Balls to Retrieve**

Teams may initially only retrieve the three (3) Balls on the right of the middle of the Centre Line from their starting end.

### **8.23 Retrieving Opposition Balls**

Balls placed for the Opposition to retrieve may be retrieved after all three (3) of the Team's own Balls have been Activated. After that, the Team may retrieve the opposition Balls, which will require Activation.

### **8.24 Ball Placement**

A Set will begin with six (6) Balls placed on the Centre Line, with three (3) Balls on either side of the middle of the Centre Line, and within a range of 3m from the sidelines. Each Team is responsible for placement of three (3) Balls which they will be allowed to retrieve during the Opening Rush.

### **8.25 Ball Placement Variation**

A Controlling Body may specify the exact location for placement of Balls for the purposes of a Competition conducted by that Controlling Body.

### **8.26 False Starts**

Once Match Officials have indicated for Teams to ready themselves for commencement of the Set, Active Players must remain in the correct Starting Position until the whistle has been blown to initiate the Set. Any Player who moves forward from their Starting Position into the Court prior to the whistle is deemed to have False Started. A False Start will stop play and the Set will be restarted.

Each Team may be issued one (1) warning for a False Start per Half Period. Subsequently, any Player who False Starts within the Half Period may be Eliminated and the Team will restart the Set with one (1) less Player..

### **8.27 Stopping Play**

Match Officials should make all efforts to ensure Players are aware of a Stoppage of Play immediately by blowing the whistle and stepping partially into Court.

### **8.28 Expiration of Time**

Play should stop immediately:

- (a) Upon expiration of Ordinary Time as indicated by Match Officials;; and
- (b) Upon expiration of time allowed for a Tie Breaker Set.

### **8.29 The End of a Set**

Play should stop upon completion of a Set. A Set is complete upon the instant of Elimination of the final Active Player of a Team as indicated by the Match Officials.

### **8.30 Throwing After the Set Ends**

Players should make all efforts to avoid throwing any Balls after the Set has ended. Should a Player deliberately throw a Ball after the Set has ended, it may be considered Misconduct.

## **9 Gameplay**

### **9.1 Objective**

The objective of game play in a Match is to Eliminate all opposing Active Players to win the Set.

### **9.2 Winning the Set**

The first team to validly Eliminate all active players from the opposing team will win the Set and score one (1) point.

### **9.3 Valid Throws**

A Ball must be thrown by an Active Player to become Live. To be deemed to have been thrown, the ball must:

- (a) Initially be controlled in the Players hand/s;
- (b) Leave the Player's hand/s via a launching action; and
- (c) Become airborne.

### **9.4 Invalid Throws**

If a live player throws a ball that is not intended to contribute to that player's team hitting an opposing live player and is not thrown in the general direction of an opposing live player, that player will accrue one warning at the discretion of the referee.

- (a) If that live player accrues more than one warning, they will be Eliminated.
- (b) A live player's accrual of warnings is reset to zero at the end of each set.

Actions that will constitute an invalid throw include, but are not limited to:

- (a) Rolling;
- (b) Kicking;
- (c) Slapping; or
- (d) Scooping; the ball.

### **9.5 Striking a Teammate**

As the objective of throwing is to strike an opponent, a Ball that has been thrown and subsequently contacts a Player from the throwers Team prior to crossing the Centre Line is deemed a Dead Ball.

### **9.6 Deformation of the Ball**

A live player may not excessively pinch, squeeze, compress, or otherwise distort a ball before that player throws that ball or that live player will accrue one warning at the discretion of the referee.

- (a) If that live player accrues more than one warning, they may be rendered out at the discretion of the referee.
- (b) A live player's accrual of warnings is reset to zero at the end of each Match.

### **9.7 Deliberate Invalid Throws**

Balls deemed by Match Officials to have been deliberately thrown:

- (a) Away from opposing Players and Ball Retrievers;
- (b) Off Court; or
- (c) In any other way to waste time,

Will be considered Invalid Throws and will constitute Misconduct.

### **9.8 Live Ball**

As soon as the validly thrown Ball leaves the Players hand, it becomes Live and can cause Elimination of opposing Players or be Caught.

### **9.9 Dead Ball**

A Live Ball remains Live until it becomes Dead when it:

- (a) Contacts a Dead Object, Surface or Player;
- (b) Is Caught; or
- (c) Is deemed Invalidly Thrown

### **9.10 Dead Players, Objects and Surfaces**

Dead Players, Objects and Surfaces are those items that cause the end to a Live Ball's travel, including, but not limited to:

- (a) Non-Active person;
  - i. Eliminated, Inactive and Non-Active Players;
  - ii. Team Officials, Ball Retrievers and Supporters
- (b) The Court Surface, including Line Markings;
- (c) Any surface or structure outside of the Court; and
- (d) Any Ball not in an Active Players physical possession, including those in flight.

### **9.11 Striking Ball**

A Ball that strikes an opposing Active Player continues to be Live until it becomes Dead.

### **9.12 Catching**

Catching a Live Ball validly thrown by an opposing Player before it becomes Dead will:

- (a) Eliminate the thrower; and
- (b) Revive one (1) Eliminated Player from the catcher's Team.

A Catch is completed at the instant the Catching Player:

- (a) Is deemed to have maintained control of the Ball, which can be described as holding the Ball with any part of the catcher's body; and
- (b) Two points of contact the floor within the Court Boundaries.

### **9.13 Blocking**

Players may use the Balls to block an incoming Live Ball. To successfully block, the Player must:

- (a) Retain control over the Ball that is used to block the oncoming Live Ball;
- (b) Retain control over any other Ball the Player may be holding at the time of impact of the Live Ball, regardless of whether it makes contact with the oncoming Live Ball; and
- (c) Avoid any contact by the Live Ball with their person or clothing.

A blocked or deflected Ball remains a Live Ball until it becomes Dead and can cause Elimination or be Caught.

#### **9.14 Blocking in Sudden Death**

Blocking is not available in Sudden Death.

#### **9.15 Disarming Ball**

A blocking Ball that has become dislodged by a Live Ball is neither a Live Ball nor a Dead Ball. The Player or Teammate which has lost control over the blocked Ball must regather control before the Ball becomes Dead to avoid being deemed disarmed.

If the Player or Teammate does regain control over the dislodged Ball, that Player remains an Active Player in the Match. Catching a dislodged Ball does not constitute a Catch towards the Team, and thus does not revive an Eliminated Player.

Should a Player or Teammate fail to regain control over the dislodged Ball, the Player that was in control of the Ball is eliminated by disarm and the Teammate is not Eliminated.

#### **9.16 Elimination**

Active Players who are Eliminated must immediately leave the Court and take a position in the designated area for their Team's Eliminated Players being sure to retain the order in which they were Eliminated. Players are Eliminated by the following:

- (a) Being struck on any part of their person or clothing with a Live Ball, validly thrown by an opposing Active Player, at the instant it becomes Dead without being Caught;
- (b) Validly throwing a Ball which is then Caught by an opposing Player before it becomes Dead;
- (c) Being Disarmed;
- (d) Being Out of Bounds; or
- (e) When directed by Match Officials due to a penalty for Misconduct under Section.

#### **9.17 Strike Elimination**

An Active Player struck on their person or clothing by a Live Ball, validly thrown by an opposing Player will be Eliminated the instant the Ball becomes Dead. A completed Catch does not constitute a Strike.

#### **9.18 Catch Elimination**

An Active Player who validly throws a Ball which is subsequently Caught by an opposing Player will be Eliminated the instant the Catch is completed.

#### **9.19 Out of Bounds Elimination**

Active Players must remain within their Team's playable area. Should an Active Player:

- (a) Step, fall or otherwise touch with any part of their body or clothing; or
- (b) Support themselves with a ball in hand,

On or beyond the Court Boundary for their area, they will be Eliminated the instant they make contact.

#### **9.20 Actions Prior to Elimination**

Any action undertaken in game play prior to the instant of Elimination remains valid.

#### **9.21 Exiting the Court**

An Eliminated Player must leave the Court in a timely manner from the nearest point of exit. If the Player is still holding a/any Ball/s they may pass those Balls to Active Players. Any Ball/s not in their possession which is moved by an Eliminated Player will be surrendered to the opposition.

### **9.22 Revival**

When a Catch is taken, an Eliminated Player from the catching Team is revived and may return to Active Play. If a revived player is exiting the court at the time of revival, they must touch the Eliminated Player Area before returning to court. If no Player is currently Eliminated at the time of the Catch, then no revival will occur.

### **9.23 Returning to the Court**

Before a Revived Player can re-enter the Court, they must touch the Eliminated Player Area with part of their person, then re-enter the Court from the Base Line. Entry from any other area will cause immediate Elimination. Revived Players must re-enter the Court in a timely manner, however, they are not required to do so into immediate threat, such as into the path of a Live Ball in flight; this does not include the threat of a throw. Delaying return unnecessarily may constitute Player Misconduct.

### **9.24 Fair Pace**

To maintain a fair pace, Match Officials will prompt a Team to throw when neither Team appears to be preparing to throw. Match Officials will determine which Team has the Advantage to throw.

### **9.25 Determining the Advantage**

Match Officials will determine which Team has the Advantage by the following:

- (a) The Team with the most Balls will have the Advantage; or
- (b) If both Teams have three (3) Balls, the Team with the most Active Players will have the advantage; or
- (c) If both Teams have three (3) Balls and the same number of Active Players, then the following will determine which has the Advantage:
  - i. At the start of the Match, the Home Team or Team listed first on the fixture will have the Advantage;
  - ii. At the start of a Set during the Match, the Team that won the preceding Set will have the Advantage; or
  - iii. During the Set, the Team that received the last Valid Throw (did not throw last) will have the Advantage.

### **9.26 Ball Possession**

Teams are considered to be in possession of Balls when they are on their side of the Centre Line, even when they are off Court.

### **9.27 Indicating the Advantage**

Match Officials will announce the Team that has the Advantage and indicate by holding out an arm in the direction of the Team's half.

### **9.28 Advantage Period**

The Team will be given ten (10) seconds to make at least one (1) Valid Throw. Match Officials will count the final five (5) seconds aloud.

### **9.29 Release from the Advantage**

Any Valid Throw by the Team with the Advantage or any disposal of a Ball by the opposing Team that crosses the Centre Line, subject to any exception and with consideration of deliberate Invalid Throws will release the Advantage until it is established again.

### **9.30 Baiting the Advantage**

Players may not purposely place or cause the placement of a Ball/s in the opposing Teams half with such proximity to the Centre Line to cause the Advantage to shift and force opposing Players to approach the Centre Line to retrieve the Balls. Balls that, in the natural course of game play, settle in such a location are accepted.

### **9.31 Failing to Throw**

If a Valid Throw is not made or release from the Advantage is not achieved prior to the end of the Advantage Period, the Team with the Advantage will be required to immediately surrender all Balls to the opposition. Until the Balls are handed over, no Elimination can occur.

### **9.32 Sudden Death**

Sudden Death is a game play mode that is devised to hasten the completion of a Set if time has expired. Regardless of the location of Balls at the expiration of time, three (3) Balls will be distributed to each Team to commence Sudden Death. Players may hold the Balls in their hands for the commencement of Sudden Death.

Game Play Alterations:

(a) Blocking

During Sudden Death, any Ball in a Player's possession will be deemed as part of their person. Any Ball blocked will be deemed to have contacted the Player and will cause Strike Elimination if not Caught prior to becoming Dead.

### **9.33 Tie Breaker Set**

During Finals only, a Tie Breaker Set will be played in the instance that the final set of a Match results in a tied score and where a winner must be determined. A Tie Breaker Set will be played for four (4) minutes under normal playing conditions in accordance with these Rules. If the Tie Breaker Set is not completed with the Elimination of one (1) entire team by the expiry of the set duration, Sudden Death will be entered.

## **10 Ball Retrieval**

Teams may employ Non-Active persons as Ball Retrievers; whose role is to retrieve Balls that have left the Court in order to return them to Active Players. Eliminated Players are not permitted to retrieve Balls for their Team, but are able to place or hand to a ball retriever any balls in the Eliminated Player Area.

### **10.1 Areas of Ball Retrieval**

(a) Off Court

Balls may be retrieved by Ball Retrievers once they are wholly and completely beyond the Line of Marked Boundaries.

(b) Centre Line

Balls may be retrieved by Ball Retrievers once they are on or over the Centre Line including its continuation on the side of the Ball Retriever's Team. If a Ball comes to rest on the Centre Line, it may be retrieved by either Team.

(c) Court Surrounds

Ball Retrievers may access all areas adjacent to the Court as is reasonably necessary but may only retrieve Balls.

## **10.2 Ball Retrieval Right of Way**

Ball Retrievers shall have reasonable right of way from other Non-Active persons in performance of their duties, however, Ball Retrievers:

- (a) Must not impede Match Officials in their duty;
- (b) Must not impede any Active Player when retrieving a Ball;
- (c) Must not impede any Ball Retriever from an opposing Team who has a reasonable chance of retrieving a Ball as it approaches the Centre Line; and
- (d) Must take all reasonable precautions to move safely around the Court.

## **10.3 Retaining Possession**

Ball Retrievers may retain possession of Balls until a suitable opportunity to return the Ball to an Active Player arises, so long as no unreasonable delay to the Match occurs.

## **10.4 Incorrect Retrieval**

If a retrieval does not meet the requirements then the Team responsible will forfeit the Ball and be required to pass the Ball as a Dead Ball to the opposing Team.

## **10.5 Returning Balls**

Ball Retrievers may return Balls to Active Players by any reasonable method so long as the action does not:

- (a) Impede active game play in any way;
- (b) Affect the path of travel of any Ball inside the Court;
- (c) Create an Advantage by moving a Dead Ball to benefit any Player/s on Court; and
- (d) Cause unreasonable delay to the Match.

# **CONDUCT PROVISIONS**

## **11 Respect for These Rules**

Respect for the Rules is key to promoting a healthy sport and sporting community.

### **11.1 Match Officials Decisions**

Match Officials are charged with interpreting these Rules and ensuring the Match runs accordingly. During game play, a Match Official's decision is final. Disputing a call may be considered Misconduct.

### **11.2 Ruling Reviews**

Where practical, Players or Teams may seek further explanation or review of a ruling during a Set Break or Timeout, subject to timing restrictions, or after a Match.

### **11.3 Honest Conduct**

While Match Officials are in place, the fast-paced and multi-faceted nature of Dodgeball will often present difficulty for Match Officials in deliberating on every event during game play.

While it is the role of Match Officials to deliberate on the events occurring during game play, in accordance with these rules, Players and Teams participating are expected to act honestly and in cases where Match Officials have not yet ruled, to the best of their ability:

- (a) Rule themselves or Teammates Eliminated when struck;
- (b) Confirm a non-catch when a Ball has not carried the full distance;
- (c) Rule themselves or Teammates Eliminated when having travelled Out of Bounds; and

(d) Otherwise uphold these Rules.

Match Officials will rule on any occurrence where there is dispute over an outcome.

#### **11.4 Dishonesty**

Repeated reports of dishonesty by a Player or Team will be monitored. Any Player or Team found to be acting dishonestly will be considered Misconduct and be subject to a Misconduct Review.

#### **11.5 Maintaining the integrity and spirit of the sport.**

The sport of Dodgeball is fast paced and competitive, however, Players and Teams participating are expected to conduct themselves in a manner that upholds the integrity of the sport and fosters the spirit of the sporting community.

#### **11.6 Misconduct**

Misconduct detracts from the spirit of the sport and will not be tolerated. Any action that brings the game in disrepute may be considered Misconduct. Misconduct will include, but not be limited to:

- (a) Poor sportsmanship, such as:
  - i. Disrespectful actions or aspersions towards Players, Official or Supporters; or
  - ii. Refusal to follow protocol; or
  - iii. Self-referring or calling opponents out;
- (b) Fighting, assault or unnecessary roughness such as:
  - i. Intentional hard striking at close range;
  - ii. Intentional striking after Elimination; or
  - iii. Impeding an opposition Player's space near or beyond the Centre Line;
- (c) Vilification of any kind;
- (d) Generally offensive behaviour such as excessive use of foul language;
- (e) Mistreatment of equipment, such as:
  - i. Kicking or spiking Balls; or
  - ii. Squeezing or crumping Balls;
- (f) Dishonesty in the case of Elimination not identified by Match Officials; and
- (g) Interference in game play proceedings by any Non-Active person.

#### **11.7 Examples of Off Court Misconduct**

The following are examples of off Court Misconduct include, but are not limited to:

- (a) Causing unreasonable delay to the Match by any action;
- (b) Any action aimed at distracting Players or Officials, such as loud or abrupt noises;
- (c) Offensive comments or gestures;
- (d) Unnecessary physical contact with Players, Officials or Supporters;
- (e) Inactive or Non-Active Players, Team Officials or Supporters entering the Court; and
- (f) Providing unfair or undue assistance to Active Players, such as supporting a Player's balance or providing leverage during the Opening Rush.

#### **11.8 Complaints of Off Court Misconduct**

A lead Team Official or Team Captain may approach Match Officials during a Set Break to request they monitor the off-Court conduct of opposing Team Officials, Support Staff, other Non-Active participants and Spectators. Match Officials may issue warnings or penalties at their discretion.

## **12 Penalties**

### **12.1 Penalties for Misconduct**

Instances of Misconduct will result in penalties to be prescribed by Match Officials. These may include, but are not limited to:

- (a) A red card on the player or team;
- (b) A yellow card on the player or team;
- (c) Further point reductions to the game result.
- (d) Player or team disqualification from a Match or Matches;
- (e) Player or team disqualification from a competition or tournament;
- (f) Playing bans; and
- (g) In extreme cases, legal prosecution.

### **12.2 Verbal Warnings**

When appropriate, Players should be given the opportunity to reconsider any part of action that tends towards Misconduct. Verbal Warnings will be given by Match Officials when a single instance of an infraction does not seem to warrant a penalty. Repeated behaviour following a Verbal Warning will incur further penalties such as Elimination or Penalty Cards. Match Officials will determine the appropriate follow up penalty.

### **12.3 Elimination Through Misconduct**

Players may be Eliminated by Match Officials when Misconduct unfairly influences game play outcomes. This penalty should be used in low level competition only with preference for use of Penalty Cards at higher level competitions.

### **12.4 Yellow Cards**

Yellow Cards may be issued by Match Officials to:

- (a) Active Players – when on Court Misconduct occurs. Yellow Cards issued to individual Players will be recorded against that player's Team; and
- (b) Teams – when off Court Misconduct by any person connected with that Team occurs.

A Yellow Card is the next disciplinary level after a Verbal Warning to penalties for Players and Teams. A single Yellow Card infraction will have the following consequences:

- (a) An individual Player that receives a Yellow Card is immediately disqualified from participating in the remainder of that Set, and the next Set;
- (b) The Team is required to compete with only five (5) Active Players;

A second Yellow Card infraction to either a Player or Team will have the same consequences as a Red Card.

### **12.5 Red Cards**

Red Cards may be issued by Match Officials to a Player or Team:

- (a) As a second offence to a Yellow Card infraction; or
- (b) In a case of serious Misconduct without warning.

A Red Card is the disciplinary level after Yellow Cards to penalties for Players and Teams. A single Red Card infraction will have the following consequences:

- (a) An individual Player that receives a Red Card is immediately disqualified from participating in the remainder of that Match, and the next Match;
- (b) The Team is required to compete with only five (5) Active Players;

## **12.6 Penalty Card Record**

A record of Penalty Cards issued should be kept by Match Officials and reported to the Controlling Body conducting the competition at the end of the Match. This record should be made available for Players and Teams.

## **12.7 Penalty Card Review**

Cards issued by Match Officials during a Match will stand until the completion of that Match. Teams and Players may request a review from the Controlling Body conducting the competition following completion of the Match. Any review will not affect the recorded outcome of a Match and can only alter the record of Penalty Cards issued.

## **12.8 Conduct of Team Personnel and Supporters**

Teams are accountable for the actions of Team Officials, Support Staff, other Non-Active participants and to a reasonable degree; Spectators supporting the Team. Poor conduct from these groups may constitute Misconduct and result in the issuing of a penalty to either the related Team or the perpetrating individual.

## **12.9 Penalties for Off Court Misconduct**

Teams for whom supporting Support Personnel or Spectators have been found to be in breach of conduct requirements may be subject to any penalty at the discretion of Match Officials.

# **APPENDIXES**

## **13 Example Interpretations**

### *Blocking Example 1*

Player A is holding three (3) Balls, one in each hand and a third trapped between the other two (2). Player A attempts to block an incoming Live Ball with the Ball in their right hand, but in doing so drops the third Ball that was trapped. Even though the third Ball was not apparently hit by the Live Ball, the Ball was dropped concurrently with and due to the impact of the Live Ball and Player A is Eliminated.

### *Blocking Example 2*

Player A is holding three (3) Balls when opposing Player B throws a Live Ball. Player A clearly drops one (1) Ball before using the remaining two (2) to block Player B's Live Ball. Since Player A did not drop the Ball due to the impact of the Live Ball, Player A is not Eliminated.

### *Blocking Example 3*

Player A is holding two (2) Balls and uses one (1) Ball to block an incoming Live Ball. The Ball used to block the Live Ball was held out in front of Player A's face while Player A dropped the Ball they were holding at their side at the time of impact. Since the dropped Ball was not clearly a result of the impact of the Live Ball which was blocked, Player A is not Eliminated.

### *Complex Example 1*

Two (2) Live Balls are thrown at Player A. The first Ball strikes and bounces in the air while the second Ball is caught before the first Ball hits the ground. The Catch is deemed Valid; however, Player A is still Eliminated the instant the first Ball becomes Dead.

#### *Complex Example 2*

Player A throws a Ball at Player B, but right before the Ball hits Player B, Player B throws a Ball at Player A. Both Balls thrown are Live Balls and both Players are Eliminated if Player A got hit by Player B's Ball. This is often called a 'Double Elimination'.

#### *Complex Example 3*

If Player A and B are the last Players remaining (i.e., there is a one-on-one) and there is a 'Double Elimination', the set shall be awarded to the Team whose last Player was Eliminated second, keeping in mind that a Player is not Eliminated until the Ball that struck them becomes Dead. If Player A's Ball hit Player B before Player B's Ball hit Player A, but Player B's Ball hits the ground before Player A's Ball, Player A is Eliminated first and Player B's Team is awarded the Set.

#### *Complex Example 4*

Player A is hit by a Live Ball which bounces high into the air. Player A throws a Ball at Player B while the that hit Player A is still in the air (i.e., before becoming Dead). The Ball thrown by Player A is still a Live Ball capable of Eliminating Player B or being Caught.

#### *Ricochet Example 1*

If Player A throws a Live Ball which strikes opposing Player B and ricochets to also strike opposing Player C before becoming Dead, then both opposing Players B and C are Eliminated.

#### *Ricochet Example 2*

If Player A throws a Live Ball which is blocked by opposing Player B and then strikes opposing Player C before becoming Dead, then Player C will be Eliminated.

#### *Ricochet Example 3*

If a Live Ball ricochets off a Dead Player exiting the Court and hits another Player, the Ball is deemed a Dead Ball and the hit does not cause another Elimination.

#### *Complex Ricochet Example*

If Player A throws a Live Ball which is blocked by opposing Player B and then hits Player C on the throwing team (Player A's team) while still a Live Ball, Player C is not Eliminated, but the Ball is still a Live Ball which may yet be Caught by the opposing Team until it becomes Dead.

#### *Dead Ball Example*

Player A is struck by Live Ball 1. Player A throws Live Ball 2 which strikes Player B on the opposing Team prior to Live Ball 1 becoming Dead, making the throw Valid. Live Ball 2 then also becomes Dead. Player A and Player B are Eliminated.

#### *Out of Bounds Example 1*

Player A releases Live Ball 1 in a Valid Throw before stepping on or beyond one of the Boundary Lines. Live Ball 1 strikes opposing Player B and becomes Dead. Player A is Eliminated the instant they make contact Out of Bounds but the throw released prior is Valid. Player B is Eliminated.

#### *Out of Bounds Example 2*

Player A releases Live Ball 1 in a valid throw immediately after stepping on or beyond one of the Boundary Lines. Live Ball 1 strikes opposing Player B and becomes Dead. Player A is Eliminated the instant they make contact Out of Bounds so the throw released after is Invalid. Player B is not Eliminated.

#### *Catching Example 1*

If Player A attempts to Catch a Live Ball and loses balance and falls/lands Out of Bounds before Player A has complete control of the Ball, such as still juggling the Ball, then it is not deemed a Catch and Player A is Eliminated.

#### *Catching Example 2*

If Player A attempts to catch a Live Ball and is hit by a Live Ball thrown by opposing Player B which becomes Dead before Player A has complete control of the Ball, such as still juggling the Ball, then it is not deemed a Catch and Player A is Eliminated.

#### *Catching Example 3*

Player A throws a Ball which strikes opposing Player B and then ricochets and is Caught by another opposing Player C before becoming Dead. The Catch is Valid. Player A is Eliminated as their throw was Caught. Player B is not Eliminated. This is often known as a 'Team Catch'.

#### *Catching Example 4*

Player A throws a Ball which is blocked by opposing Player B and then ricochets and is Caught by another opposing Player C before becoming Dead. The Catch is Valid. Player A is Eliminated as their throw was Caught.

#### *Catching Example 5*

Player A throws Live Ball 1. Opposing Player B then throws Live Ball 2 which strikes Player A and becomes Dead. After Live Ball 2 becomes Dead, opposing Player C (Player B's Team) catches Live Ball 1. As Live Ball 1 was Live, the Catch is Valid despite Player A being Eliminated before the Catch was completed.

#### *Catching Example 6*

If Player A throws a Ball at opposing Player B which is blocked or ricochets and is Caught by Player A's team while it is still a Live Ball, this does not constitute a Catch.

#### *Revival Example*

Player A is revived and returns via the Side Line rather than the Base Line. Opposing Player B throws a Ball which strikes Player A and becomes Dead. Regardless of the decision on the incorrect re-entry, Player A is Eliminated.

#### *Elimination Example*

If Player A is struck and leaves the Court while the striking Ball is still Live, Player A is Eliminated for being Out of Bounds. If the striking Ball is Caught before it becomes dead, Player A remains Eliminated but is eligible for Revival subject to the order of Elimination, i.e., if Player A is the only Eliminated Player, they are Revived by the Catch.
